POS Update: Release 2025.4

Live on Monday, September 29

Based on the feedback we've received from Our People and improvement opportunities we have identified, the following POS updates are live:

Alert Center

- When a BOPIS order auto-sources from another store, the order will stay in the "New" bucket **until it is manually moved**. A black truck icon will indicate the order has an STO.

Open Orders

- The filter will now remain on the Open Orders By Store screen after viewing Transaction Details, Create and Modify an Appointment, and Deleting an Order.

Point of Sale

- You are now able to delete a quote.

- When logging in to the GK Launchpad for the first time to complete End-of-Day activities, you will no longer receive a login error message.

- You will now see the original and deviated price on digital and printed Work Orders.

Published on: 09/29/2025 ver 1.0

VTV

- The VTVs will stay on Service Later and Quote orders if transacted on the same day.

Reminders

- Please continue to leverage the [Vision Self-Service list](#) on the KC for the latest known issues and workarounds.

- If you experience an issue that is not shown on the Self-Service list, please continue to follow the Support Flow by reviewing the KC documentation and checking with your Buddy store or AVP before contacting the Service Desk (480)-606-6007.

- Please submit all Vision POS Feedback using through the [ServiceNow portal](#).
