

POS Update: Feedback Improvements 7

Scheduled to be live on Wednesday, October 15

Based on the feedback we’ve received from Our People and improvement opportunities we have identified, the following POS updates will be live:

Customer/Vehicle

- The Apply Customer Vehicle button will be removed, and updates to the customer, vehicle, and VTV workflows will now automatically be applied.

Product Browse

- Resolving the sorting/ranking issue in Treadwell when a filter option is selected and applied.
- If you do not have the correct stock amount of a product at the time of checkout, the Cart screen will show an “Insufficient Quantity” warning.

Description	Fit Qual.	Status	Avail.	Each	Qty	Price	Delete
RADAR DIMAX AS-8	No override required	A	6	\$76.00	7	\$532.00	
						Insufficient Quantity	
TPMS RBK BASIC KIT 2045K			7				

- Lug sorting will now default to highest stock level.

CSL

- You will be able to change the customer phone number for Text When Done in the CSL. Please note you can only select one phone number for the text.

Reminders

- Please continue to leverage the [Vision Self-Service list](#) on the KC for the latest known issues and workarounds.

- If you experience an issue that is not shown on the Self-Service list, please continue to follow the Support Flow by reviewing the KC documentation and checking with your Buddy store or AVP before contacting the Service Desk (480)-606-6007.
- Please submit all Vision POS Feedback using through the [ServiceNow portal](#).
