

Schrader Compressors

September 6, 2016

What and Why

All compressor manufacturers and serial numbers must be identified and accounted for within each region by store number due to a potential hazard.

Please exercise caution when working around the compressor as we do not presently know if this is a danger to you.

Action

IMMEDIATELY

- Write down the manufacturer's name along with its serial number for each compressor in your store
(see the example in the [blue square](#))
- Also include the "Tank Date" this is the year engraved on the tank plate
(see the example in the [blue circle](#))

Deliverables

Identify the product:

- Identify the compressor(s) manufacturer.
- Write down the serial number(s).
- Write down the "Tank Date"
- Complete the "Final Step" below

Final Step

Complete the following [Compressor Survey](#)

Please complete the above survey within 24 hours from the time of receiving this message.

DO NOT REMOVE or otherwise alter your compressor!

Thank you for keeping our people Safe!
